

DUNDURN- Burial Ground
LAIR BOOK

St.Fillans project 2017

Dundurn Lair Book

It is now nearly twenty years since the keeping of a record of those interred in Dundurn Burial Ground was suggested as being necessary and this book presented to those interested for that purpose.

The want of such a record is yearly becoming more and more felt and it has been thought advisable to enter the names of as many as those still alive can remember of being interred and names and dates that have been forgotten will be entered hereafter if correct information can be got and a blank space will be left where names and dates are wanting.

Rev James William Blake
St Fillans 1879

Total No of 112 people buried in No 6 or South East Section

~~~~~

Given that records were only started in 1879 it is unclear as to the total number of people interred in the main sections of the burial ground. In addition to the identifiable stones there are a number of flat slabs with no sign of identification.

*Where possible I have included the known residences of the deceased.*

*As high proportion of those interred have no marker stones, further research is required to ascertain their exact resting place.*

---

*I am gratefully indebted to David Birkmyre & Fraser Ballantyne for their assistance in compiling this record.*
